Lukasz Bibik- Senior Project Officer
Digitalisation and Application
Development, Unit C.4

Lisbon, 19.10.2017

Current Use of ABMs and service evolution

ABM WS3 reporting

2017-09

USERS

11 Member States; 4 EU Bodies

10 Admins at MS level 4 Admins at EU Bodies =>

>70 ABM Admin accounts

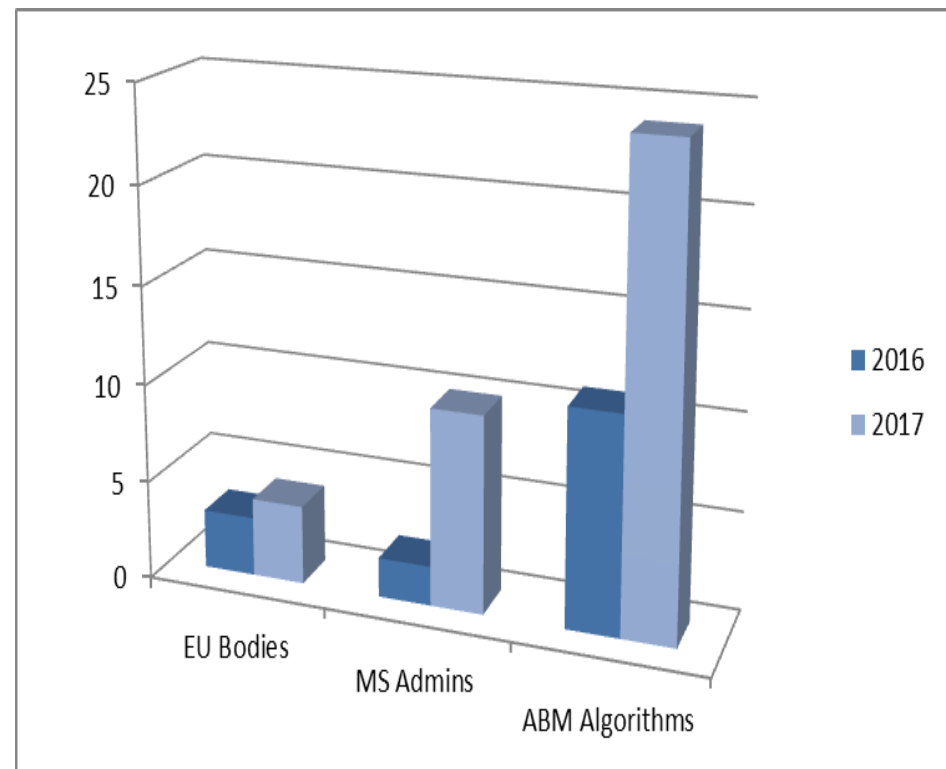

METRICS

147 Running - Active ABMs

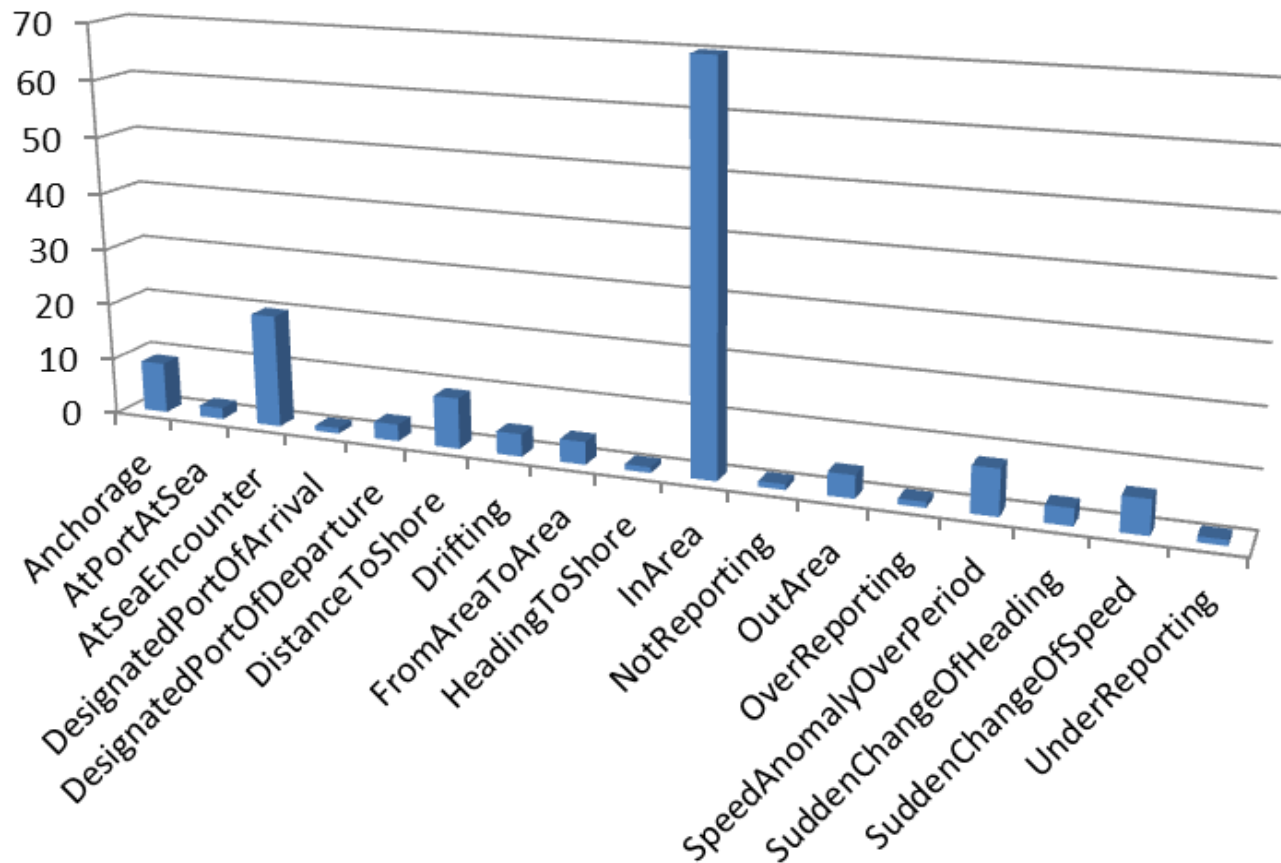

290 other ABMs used

Multiple Distribution lists

24 ABM types operational

Active ABMs

ABM algorithms used by various communities **with positive operational outcomes.**

ABM related training modules incorporated into the IMS training sessions and ad-hoc webinars, as well as ABM user Guide.

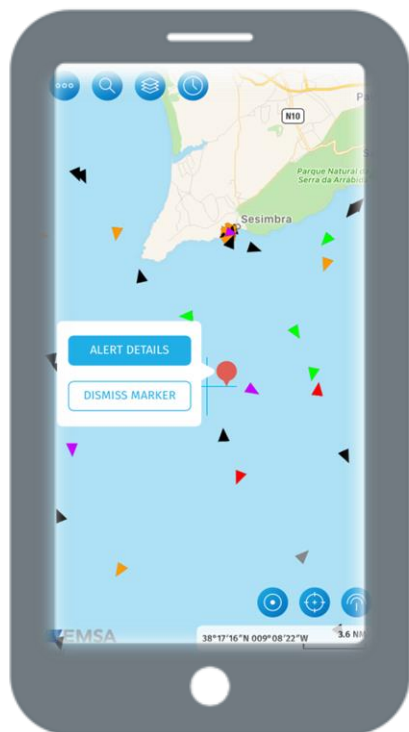

Changes and developments in a **short to mid-term time frame.**

Top priorities for the future developments:

- Implementation of the ABMs based on the **historical data analysis.**
- Increase of the **rate of the T-AIS.**
- Use of the **EO data – VDS.**
