

6th SSN LRIT Group Meeting

Incident Reporting Working Group – progress report

Agenda item 6.3.3

Marta Lima / Senior project Officer
Department C: Operations/Unit C.2.1

Lisbon / 31 October 2019

Working Group on “Incident Reports” (IRWG) was re-establish by HLSG DM 4 (Dec. 2018)

- Following feedback received from Pollution Response Authorities and SSN users, there is a need to further improve/correct some features and align with operational procedures
- **Objective: to further improve reporting and exchange of Incident Reports through SafeSeaNet and from Pollution Response Authorities users**
- Participants from volunteer Member States that represent both the SSN user community and the Pollution Response Authorities: Belgium, Denmark, Malta, Norway, the Netherlands, Poland, Portugal, Romania, Slovenia, Spain, and Sweden.

Current status

- **1st meeting of the IRWG (19 June):** discussed the revision of the business processes in SSN for IR submission, access to IR information and exchange of IR information and propose improvements to the IR structure and the SSN web interface
- **2nd meeting of the IRWG planned for 12 November** to conclude the work on Business Requirements and propose improvements to IR Guidelines
- The work will continue by **correspondence** to conclude:
 - improvements on the SSN web interface
 - improvements on the current SSN XML message structure of the Incident Report messages
 - review the Incident Report Messages Guidelines
- **IRWG proposals** will be submitted to both the SSN Group and the CTG MPPR for comments, before being submitted to **HLSG for final approval** (tentative date June 2020)
