

Meeting: Pilot project on “Facilitation of ship to shore reporting” – 5th meeting

Place and date: Video conference, 08 April 2021

Agenda item: Follow-up actions from previous meeting

Document number: 5.2

Submitted by EMSA

Summary	This document presents the current status of the follow up actions arising from the 4 th meeting of the facilitation of ship to shore reporting pilot project.
Action to be taken	As per paragraph 3.
Related documents	Minutes of the 4 th meeting of the “ship to shore reporting” pilot project.

1 Background

The 4th meeting of the pilot project for the facilitation of ship to shore reporting took place on 10 December 2020 via video conference. The minutes of the meeting with the follow up actions were distributed to the participants on 11 December and approved by correspondence (see in Annex).

2 Current Status

The table below presents the list of follow up actions arising from the 4th meeting and their status:

Action	Current status
1. Provide the technical documentation for system to system communication to France.	Completed (sent on 17 December 2020).
2. Investigate the technical feasibility for establishing link to SSN for display Hazmat, Waste and other details in the existing SSN interface.	On-going This idea is being investigated by the IRD and SSN contractors. Changes would be required in both systems.
3. Test the IRD phase 2 system and provide feedback and possible ideas for improvements. Think of test cases and authorities to involve in the operational tests.	On-going More details in the document 5.3.
4. Review the XLS file presenting the reporting obligations per MRS system that was distributed to project participants on 30 November 2020 and provide comments.	Completed
5. Analyse if ship will be able to re-use data between MRS systems in the Ship DP GUI and to include this possibility in IRD phase 3.	Completed. This feature will be available in IRD phase 3.
6. Liaise with Norway to identify synergies between this project and SESAME project.	Completed. The content of the VTS/MRS report aligned between the projects.
7. Liaise with Sweden and Germany to find the best way of presenting this pilot project to IALA.	Completed. Presentation at VTS50.
8. Provide feedback on the GUI for IRD phase 3 based on the mock-ups included in the presentation.	Completed
9. Member States willing to participate in the testing of the VDE-SAT solution are invited to express their interest to EMSA.	On-going

Action	Current status
10. Plan next meeting in March 2021 with the objective to collect feedback on the IRD phase 2, prepare guidelines and scenarios for the operational tests and present progress on IRD phase 3.	Completed. Scheduled for April due to VTS50 and Easter holidays.
11. Draft the minutes of the meeting and provide attendees with copies of the meeting presentations.	Completed. The approved minutes of the meeting were distributed on 18 December 2020.

3 Actions required

Member States are invited to take note of this information.
