

Adriatic-Ionian joint approach for development and harmonization of procedures and regulations in the field of navigation safety - EUREKA

EUREKA

- the INTERREG V-B Adriatic-Ionian ADRION Programme Project
- Partners are Adriatic-Ionian Maritime Administrations of Croatia (as LP), Albania, HCG, ITCG, Montenegro and Slovenia and Maritime Faculties of Croatia and Montenegro. BaH is associated partner
- Value: € 3.165.750,00; duration December 2020 - May 2023
- Main EUREKA goals:
to amend (modernize) the current Mandatory Ship Reporting system (ADRIREP)

to reduce excessive administrative burden and duplication of data collected by administrations

capacity-building activities (harmonized and standardized VTS service training, education)

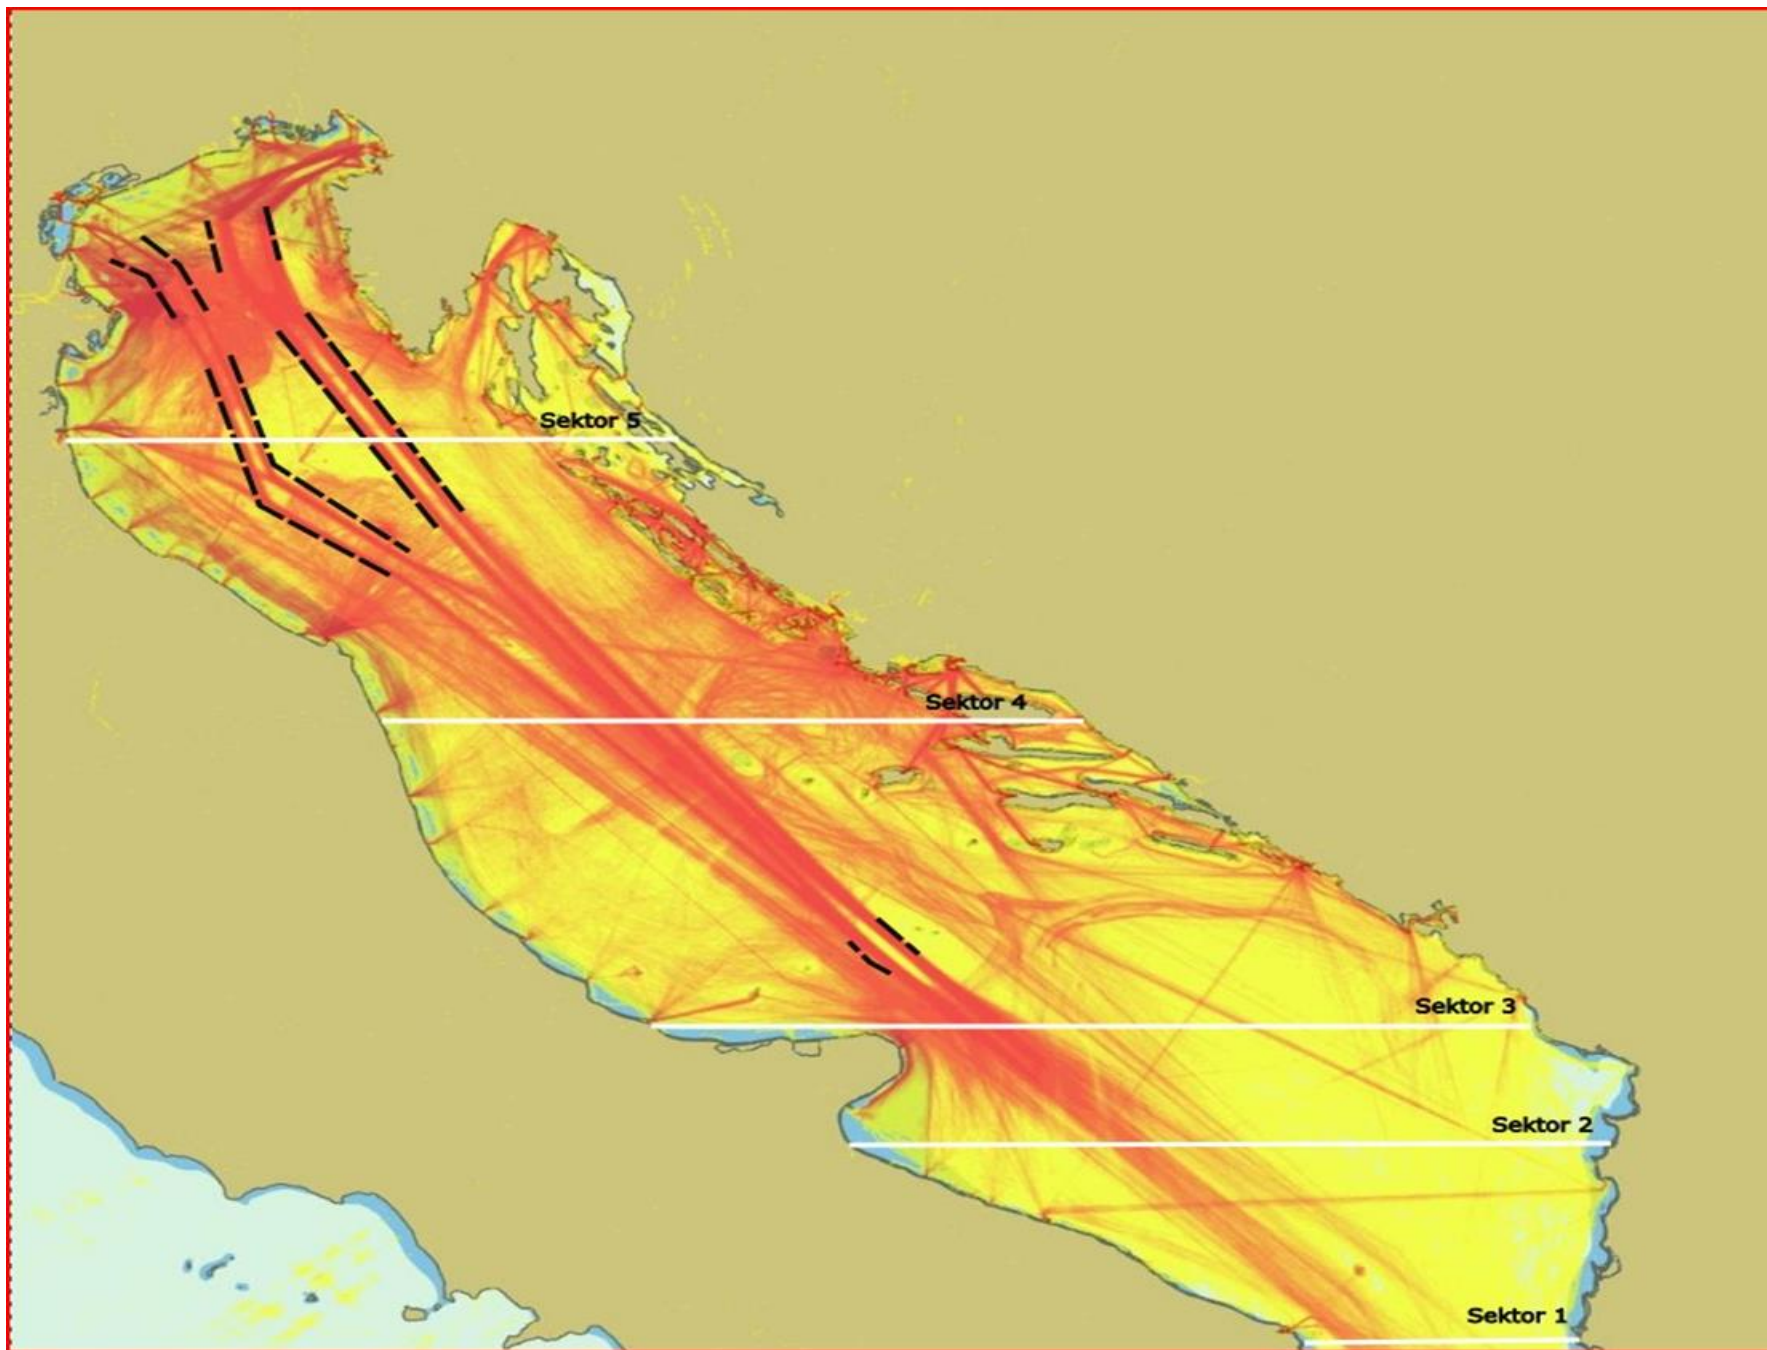

coordinated implementation of new Traffic Separation Schemes in the congested areas

pilot project on implementation of Sea Traffic Management (STM) within national VTMS's

Maritime Safety Permanent Transnational Network will be established within the EUREKA project framework, aiming on continuation of expert cooperation between the administrations.

EUREKA

Modernization of the current Mandatory Ship Reporting system (ADRIREP)

- SSN/AIS data based system (IRD platform - web servis / GUI)
- To use VHF only when needed (silent VTS)
- To use STM as much as possible
- Adriatic sea region („exits to be shared with Greece)
- All ships 300 GT and above and all HAZMAT ships
- Data set alligned with VTMISS Directive
- 2 reports (entry/exit) + position „on demand only”

Thank you
