Follow-up actions from previous meeting

Action	Current status
1. Investigate the technical feasibility for implementing changes reported by the Sound VTS.	Completed Planned for 2022
2. Review the existing reporting obligations for ships in the SRS and try to remove information which is not anymore necessary. This works should aim at harmonisation of reporting at EU level and on the re-use of data between different ship reporting systems.	On-going WG established to perform this task.
3. Investigate the technical feasibility for implementing changes provided in Annex 2 and inform the group on progress at the next meeting.	Completed
4. Investigate whether MS can test VDES using EMSA's setup when it is ready (e.g. through remote desktop connection).	On-going
5. Test the IRD and to request additional user accounts or webinars if needed.	On-going
6. Draft and distribute a first version of the report by the end of February 2022.	Completed
7. Plan next meeting in February 2022 with the objective of discussing on the final report and next steps.	Completed
8. Draft the minutes of the meeting and provide attendees with copies of the meeting presentations.	Completed
