Submitted by EMSA

Summary	This document presents the current status of the follow up actions arising from the 1 st SSN/LRIT Group meeting.
Action to be taken	As per paragraph 3.
Related documents	1 st SSN/LRIT Group meeting – Workshop report

1 Background

This paper focuses on the current status of the actions arising from the 1st SSN/LRIT meeting in May 2017.

2 Current Status

The following actions have been completed:

- The draft PortPlus guidelines, the draft Common Operational Procedures (COP), the System Requirements Specifications and the draft XML Messaging Reference Guide for SSN v4 were submitted and approved by the HLSG.
- The proposal for updating the business rule for the “timing requirements” of bunkers reporting was reported to the HLSG and was properly taken into account.
- The additional proposals to phase out of v2 messages, Alert notifications and the minor correction to the SOAP interface were submitted and approved by the HLSG.
- Information on the availability of Waste and Security notifications was included in the Data Quality monthly report sent to MSs in May 2017.
- Spain contacted EMSA in order to schedule a dedicated bilateral Data Quality meeting during September 2017. The UK also volunteered, with a date to be arranged in the autumn. Other MSs may also contact EMSA on a voluntary basis in order to schedule dedicated bilateral Data Quality meetings.
- A Request For Change (RFC) concerning the development of the automatic rate change functionality of the EU LRIT DC has been prepared and is being assessed.

In addition, the following actions for the MSs are considered as ongoing:

- Contact EMSA in order to connect national ship databases to the CSD via web services.
- Consider all recommendations made in the Data Quality report with the aim of further improving the quality of data reported in SSN.

- Provide comments to EMSA concerning the proposals made in the assessment of the implementation and Data Quality of the MRS.
- Contact EMSA in order to grant access to the SEG for specific users.

3 Actions required

Member States are invited to take note of this information.
