

Meeting: 2nd SSN / LRIT Group Meeting

Place and date: Lisbon, 18 October 2017

Agenda item: MSs Commissioning Tests Plan – Update

Document number: SSN/LRIT 2.4.2

Submitted by EMSA

Summary	The document presents the updated commissioning tests plan documentation.
Action to be taken	As per paragraph 3
Related documents	SSN LRIT 1.4.2 SSN version 4 – progress report

1 Background

EMSA introduced a proposal for improving the Commissioning Tests (CT) process at the 1st SSN/LRIT Group meeting. MSs agreed in principle with the proposal presented for improving the CT process and the MSs Commissioning Test Plan and invited EMSA to present an updated MSs Commissioning Test Plan at the 2nd meeting.

2 Current Status

The existing documents have been reviewed in order to include changes related to SSN V4.0, taking into account the new approach for the CT process. The updated documentation is attached and the proposed changes are indicated in track.

The changes amend the Strategy, Preliminary Actions, Test Execution and Test Cases/ Scenarios sections in both the mandatory and ancillary documents in order to cover the needs of SSN V.4 and include the Phase 2 of the CT.

3 Actions required

Member States are invited to approve the CT of SSN V.4 and the inclusion of Phase 2 CT on a best effort basis.

Annexes:

Member State Commissioning Plan, Part A - Mandatory Test Cases (draft v2.0)

Member State Commissioning Plan, Part B – Ancillary Test Cases (draft v2.0)

Member State Commissioning Test Report (draft v2.0)
