

7th SSN/LRIT Group Meeting

Yearly report to MS – LRIT update

Agenda item 7.5.3

Vincent Guida / Senior Project Officer
Department 3: Unit 3.3 Simplification

Lisbon / 13 May 2020

- **Action items from 5th SSN/LRIT meeting, about the Yearly report to MSs:**
- **Reflect the work performed by MSs on ships not integrated and not reporting;**
- **How long a ship should be in status Not reporting before being listed in the report**

- **Currently, Yearly reports list 2 tables:**
 - **Ships not integrated after 2 weeks in status: Not integrated**
 - **Ships not reporting after 2 weeks in status: Not reporting**
- **From one report to another, often these list are never empty, although some troubleshooting has been done**

Proposal

- Split each table in 2 parts:
 - Part one: contains only ships not integrated/not reporting since previous report (one year);

- E.g, today:
(without stopped ships)

Date of last position	Nb of ships
2010	4
2011	6
2012	1
2013	4
2014	13
2015	20
2016	25
2017	33
2018	61
2019	152
2020	7434

Proposal

- **Split each table in 2 parts:**
 - **Part two: ships not integrated/not reporting for one month (reasonable time to contact the shipowner, having a technician on board and receive feedback from the company)**
- **Approved?**
