

# 10<sup>th</sup> SSN LRIT Group Meeting

## Revision of Data Quality Checks

Agenda item 10.5.2

Aristeidis OIKONOMOU / MSS  
Department 3: Operations/Unit 3.2

Videoconference / 20 October 2021

## Quality checks adapt to:

- the deployment of SSN v5

## Proposed change on the Data Quality checks

### The following change is now considered:

- Changes based on the information from the revised advance waste notification and the waste delivery receipt (required by Directive (EU) 2019/883),

**Proposed end of transition period: May 2022**

# Changes stemming from the revised Directives

The revised Directives requires that all vessels will report Waste receipts regardless of their flag

Check	Details	How? Purpose?
SSN Related		
Notifications	Numbers/ Counting	Detect inconsistencies, missing reporting/ Provide overall picture of Ship calls and Hazmat, Waste, <b>Waste delivery receipt</b> , bunker and Security reporting trends. Exemptions are taken into account
Waste delivery receipt	Reported before departure or after	Implementation of the Dir. requirements

## Detailed implementation

It is proposed to implement by **June 2022** the following checks corresponding to the waste delivery receipt:

- Number of Waste receipts provided (in the daily report issued per MS and in the yearly report);
- Timeliness of the Waste receipt, following the same approach as for the Hazmat EU Departure (before departure, 3h after or more than 3h after).

Further checks on this notification and on any update on SSN v5 may be discussed at a later stage.

## Actions required

**Member States are invited to take note of the information provided on the:**

- Changes based on the revised advance waste notification and the waste delivery receipt (required by Directive (EU) 2019/883),
