¹ **Personal** data is any information relating to an identified or identifiable natural person, i.e. someone who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity. This information may, for example, be the name, date of birth, a telephone number, biometric data, medical data, a picture, professional details, etc.

Processing means any operation or set of operations which is performed on personal data, whether or not by automatic means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

² In case of more than one controller (e.g. joint operations), all controllers need to be listed here

³ This is the unit that decides that the processing takes place and why.

⁴ Is EMSA itself conducting the processing? Or has a provider been contracted?

3) Purpose of the processing (Article 31.1(b))

Why are the personal data being processed? Specify the rationale and underlying reason for the processing and describe the individual steps used for the processing.

The EMSA Founding Regulation (EC) 1406/2002, as amended, states in its Article 2b - "European Cooperation on Coast Guard functions" - that "the Agency shall, in cooperation with the European Border and Coast Guard Agency and the European Fisheries Control Agency, each within their mandate, support national authorities carrying out coastguard functions at national and Union level, and where appropriate, at international level, by inter alia building capacity by elaborating guidelines and recommendations, and by establishing best practices as well as by providing training and exchange of staff".

This broader concept of European cooperation on coast guard functions embraces several activities which currently also include the work associated with the European Coast Guard Function Forum (ECGFF). The 2021-2022 ECGFF Chair (Croatia) has identified a list of activities to be carried out during its 12-month Chairmanship. One of the themes chosen by the current Chair, is to foster the continuous improvement of navigational safety, safety of life at sea, environmental safety, ship and port security using modern surveillance technologies such as the Remotely Piloted Aircraft Services (RPAS).

The joint workshop on RPAS for maritime surveillance, which will take place on 15-16 February 2022 both at EMSA premises in Lisbon (Praça Europa 4, 1249-206 Lisbon, Portugal) and via ZOOM.

The general objective of this workshop is to share best practices and lessons learnt of RPAS services to maritime authorities, drawing on the experiences of the European and national stakeholders in the civil domain. Additionally, the workshop aims to stimulate reflection on future opportunities and key challenges for the use of RPAS in the maritime domain within the context of different coast guard functions. Industry representatives will provide input on best practices in terms of service provision and operations.

The workshop will start with a plenary session, setting the scene. This will be followed by a break-out session, during which participants should join one of the three available groups, each of which will focus on specific Coast Guard functions. Participants will be requested to indicate when registering in which of the three groups they would like to participate. It will not be possible to move between groups. The final composition of the groups will be formed to ensure a balanced discussion and contribution from all participating stakeholders. The second day of the workshop will again be in plenary, looking into the institutional and industry point of view and wrapping up the outcomes of the breakout sessions.

For the purposes of administering the organisation of the workshop, inviting participants and speakers, reimbursing their expenses and facilitating their attendance a certain amount of personal data needs to be processed by EMSA in accordance with the applicable legislation and internal rules.

4) Lawfulness of the processing (Article 5(a)–(d)): Processing necessary for:
