

IN A NUTSHELL

The Systems of Co-operation

3 levels of Co-operation/assistance between States :

- Bi- and tri-lateral agreements (sub-regional level) between neighbouring States
- Regional Agreements (regional level) between States adjoining the same sea area

- European level: ERCC/EMSA

POLREP system

- Currently based on structured information exchange
- Part I or POLWARN POLLution WARNing gives information or warning of pollution or threat of pollution → **SafeSeaNet (EMSA)**
- Part II or POLINF POLLution INFOrmation gives detailed supplementary information → **SafeSeaNet (EMSA)**
- Part III or POLFAC POLLution FACilities deals with matters related to assistance → **CECIS MP**

CECIS OVERVIEW

Web-based alert and notification system for emergency situations.

Civil Protection and **Marine Pollution** emergencies
(2 different applications)

Participating States in the EU CP Mechanism.

Available in the **TESTA** network for Civil Protection,
on **Internet** for Marine Pollution

Central concept is the **Emergencies management**
and in a more indirect way the **Resources management**

All actions done in **CECIS** appear automatically in
the **logbook**, and can be sent by three other means
"**E-mail**", "**FAX**" or "**SMS**"

CECIS Marine Pollution

- Users: MP poc, EMSA and CP poc if relevant (coastal pollution)
- Emergencies:
 - Off-shore pollution: MP class
 - Off-shore and coastal pollution: CP & MP class - joint emergency
- Regional activation possible
- Established link with SafeSeaNet (EMSA) to receive pollution warnings and information
- In the future: Possible extension of access to 3rd countries sharing the regional sea basin with the Union

Assistance required :

- Place of refuge
- Experts (environmental, technical, scientific, etc)
- Spill detection and reconnaissance (satellite imagery, aerial surveillance)
- HNS spill response capacity
- Oil spill response equipment
- Oil spill response vessels
- Oil Spill Dispersants
- Specialised Laboratories
- Shoreline Clean-up Equipment
- Oiled wild life response
- Other specialised equipment

CECIS Resources are composed by a very agile structure :

- **Category**
 - **Sub-Category**
 - **Filter**
