COUNCIL OF THE EU CALLS FOR WIDESPREAD IMPLEMENTATION OF CISE INTEROPERABILITY SOLUTIONS

The recently adopted European Maritime, Policing and Security Act (EMPS) implementation action plan (AIP) indicates the need for the Common Information Sharing Environment (CISE) to be used across all EU Member States. To support this, the EU Council called for CISE to become the interoperability framework for all maritime security initiatives, furthering the scope of work of the new Council preparatory body – CISE II.

EUROPEAN UNION MARITIME SECURITY STRATEGY AND ITS ACTION PLAN

At the end of September, the Council welcomed the progress made in developing the European Union Maritime Security Strategy and its Action Plan. The scope of work of this new body includes the establishment of a common body of legislation for the implementation of the European Union Maritime Security Strategy and its Action Plan.

POLLUTION RESPONSE SERVICES TO BE TOPPED UP

On 15 and 16 September, EMSA hosted a high level workshop on FUNDING OPPORTUNITIES FOR CISE. The workshop aimed to discuss experience so far and opportunities for future funding. The workshop was the first meeting of the new Council preparatory body – CISE II.

OFF THE COAST OF LE HAVRE

In the latest conclusions on maritime security adopted on 22 August, Member States were called to report on the implementation of the Common Information Sharing Environment (CISE) and interoperability framework. The conclusions also highlighted the need for continued efforts to support the full implementation of CISE.

EMSA NEWSLETTER NO. 198

EUROPEAN MARITIME SECURITY OFFICE (EMS A)

The interim guidance document is intended for practical use and to facilitate sharing of knowledge among member states. The guidance document was developed based on the experience and lessons learned with the current Transitional Phase to Operations managed by EMSA.

PREPARATION FOR CHEMICAL SPILLS AT SEA
