VTs Operator Training

The overall objective of the course

- to ensure that participants are provided with realistic exercises on the role of VTS
- participants were to become familiar with the basic principles of vessel traffic services, the services that VTS can provide to shipping and the resources and means of providing those services
- to stimulate a sense of responsibility, watchfulness and precision that characterizes a competent VTS operator.

The course was to reflect as much as possible the Recommendation V-103/1 of IALA (International Association of Marine Aids to Navigation and Lighthouse Authorities)
