

Sonia Knobloch- Sieradzka

Deputy Director, Department of Maritime Economy and Inland Navigation, Ministry of Infrastructure

Ms Sonia Knobloch-Sieradzka supervises the work of the Shipping Safety and Port Security Unit and the Marine Environmental Protection Unit. Her duties include substantive supervision of the creation of national legal acts in order to properly implement and harmonize Polish law with EU and international law in the area of safety of navigation, port security and protection of the marine environment, as well as supervision of subordinate units performing operational tasks in these areas.

She has been working in government maritime administration since 2010, handling matters in the field of safety of navigation, safety and registration of yachts, monitoring of ship traffic, and port state control. She is a Yacht-master and Sailing Instructor and has worked for many years as a sailing instructor and skipper in the Baltic Sea. She graduated from the Faculty of Political Science at the University of Warsaw.
