

Appendix I to the Notice of Call for Expression of Interest No. EMSA/CEI/1/2026 – Area of expertise

- 1 Alternative fuels and alternative sources of power
- 2 Artificial intelligence in the maritime domain
- 3 Automatic Identification System (AIS)
- 4 Autonomous ships
- 5 Classification Societies and Recognised Organisations
- 6 Cybersecurity in the maritime domain
- 7 Development and delivery of training in the maritime domain
- 8 Drafting of maritime legislation
- 9 Education, training and certification of seafarers
- 10 EU Emissions Trading System (ETS) in the maritime domain
- 11 Fishing vessel safety
- 12 Flag State requirements
- 13 Greenhouse Gases
- 14 IMSAS and IMO Instruments Implementation (III) Code
- 15 International Maritime Dangerous Goods (IMDG) Code
- 16 International Safety Management (ISM) Code
- 17 Maritime liability and compensation regimes, including Protection and Indemnity (P&I) and Hull and Machinery (H&M) insurance
- 18 Long Range Identification and Tracking (LRIT)
- 19 Marine casualty investigation
- 20 Marine Equipment
- 21 Marine Equipment – Market surveillance
- 22 Marine Equipment – Notified bodies

23	Marine litter
24	Maritime Aids to Navigation systems and technologies
25	Maritime Cargo - pricing, freight rates, ownership, and insurance (including oil and gas)
26	Marine insurance, including Protection and Indemnity (P&I), Hull and Machinery (H&M), and Freight, Demurrage and Defence (FD&D)
27	Maritime contingency planning and crisis management
28	Maritime digital services (software development, architecture, infrastructure services)
29	Maritime emergency response (IAMSAR, GMDSS, OPRC)
30	Maritime security and ISPS Code
31	Maritime shipping - chartering, maritime agency, and brokerage
32	Maritime shipping - domicile, registration, and regulatory compliance
33	Maritime shipping - ownership, operation, and technical management structures
34	Maritime surveillance
35	Mobile offshore drilling units
36	Monitoring, reporting, and verification of carbon dioxide emissions
37	Navigation and e-Navigation systems and services (nautical charts, traffic separation schemes, navigational warnings, etc)
38	Organotin compounds on ships
39	Ozone depleting substances
40	Places of refuge
41	Polar Code
42	Pollution preparedness
43	Pollution response
44	Port reception facilities (PRF)
45	Port State Control (PSC)
46	Quality management system for maritime administrations
47	Reporting formalities and Maritime Single Window (FAL Convention and Regulation (EU) 2019/1239)
48	Safe minimum manning
49	Safety of oil and gas platforms
50	Safety of passenger ships
51	Sanctions regimes and other restrictions in the maritime domain
52	Seafarers' working and living conditions

European Maritime Safety Agency

53	Search and Rescue (SAR) operations
54	Ship recycling
56	Shipment of waste
57	Stability of ro-ro passenger ships
58	Sulphur in marine fuels
59	Underwater services in the context of accident investigation and coast guard functions
60	Vessel Traffic Monitoring and Information Systems
