

SSN Group meeting 25

CSD – progress report

Agenda item 25.4.3

Jaime Mayordomo / Project Officer
Department C: Operations/Unit C.2.1

Lisbon / 11 May 2016

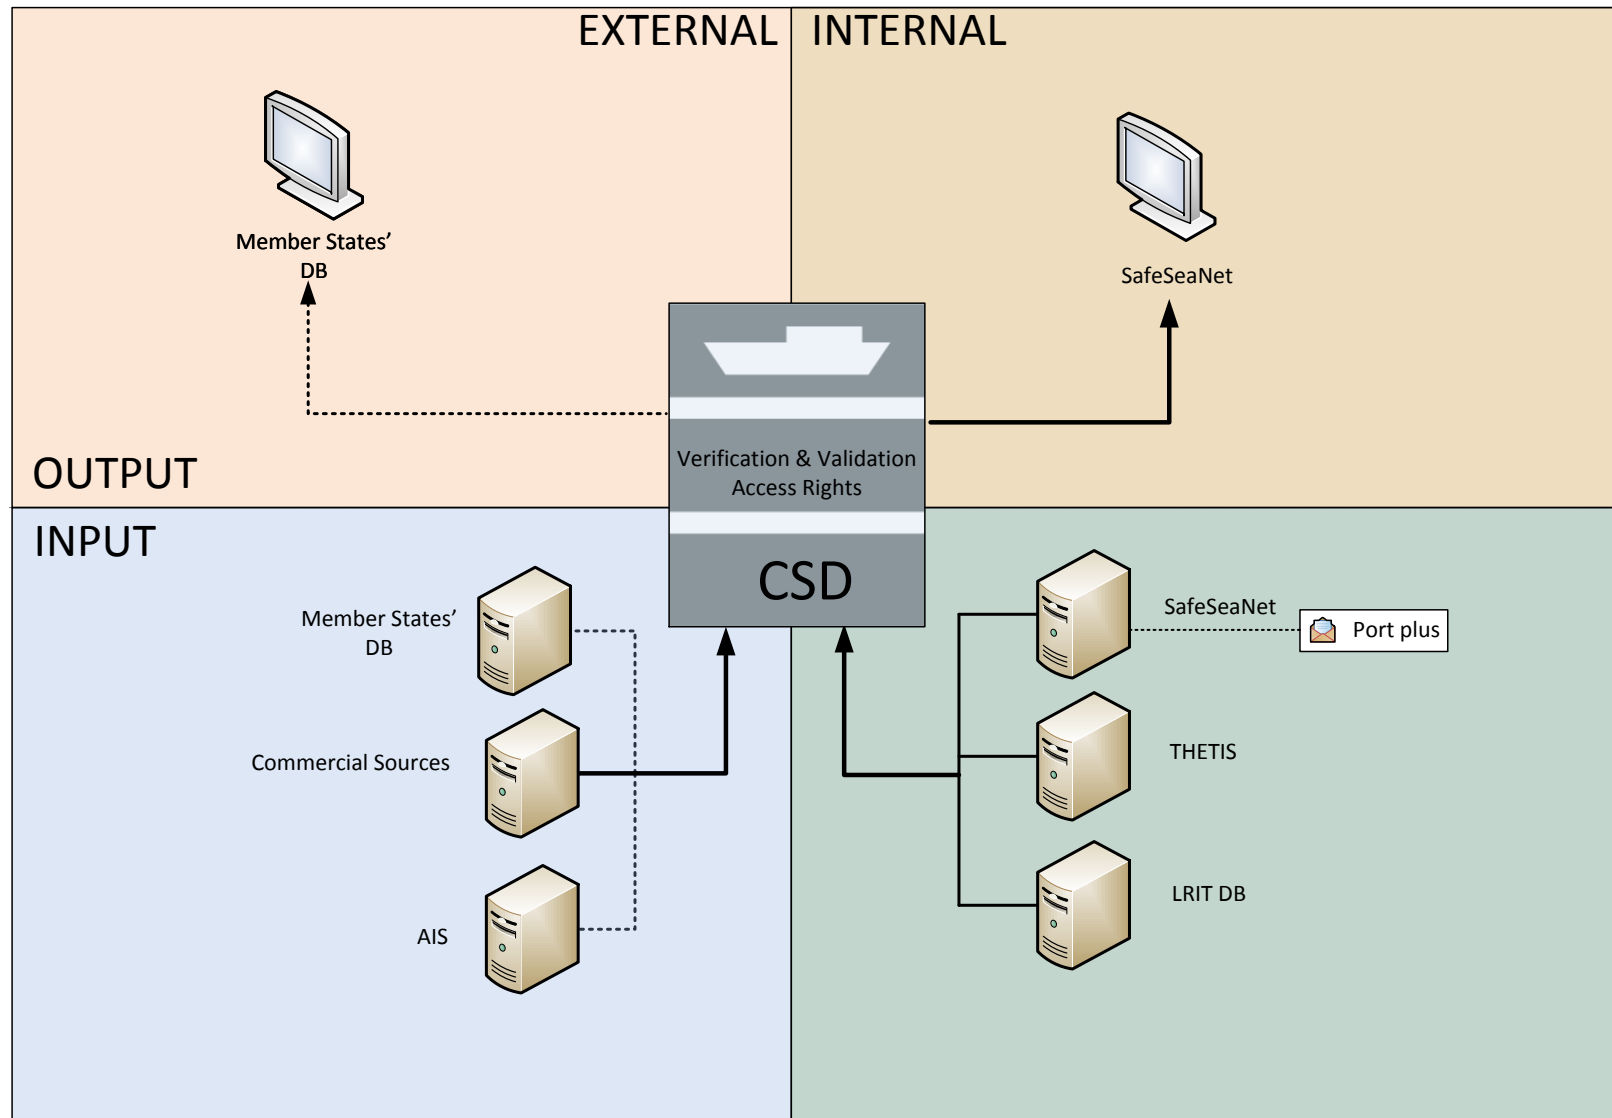

Central Ship Database (CSD):

“A reliable cooperative source of Ship particulars information for EMSA & partners”

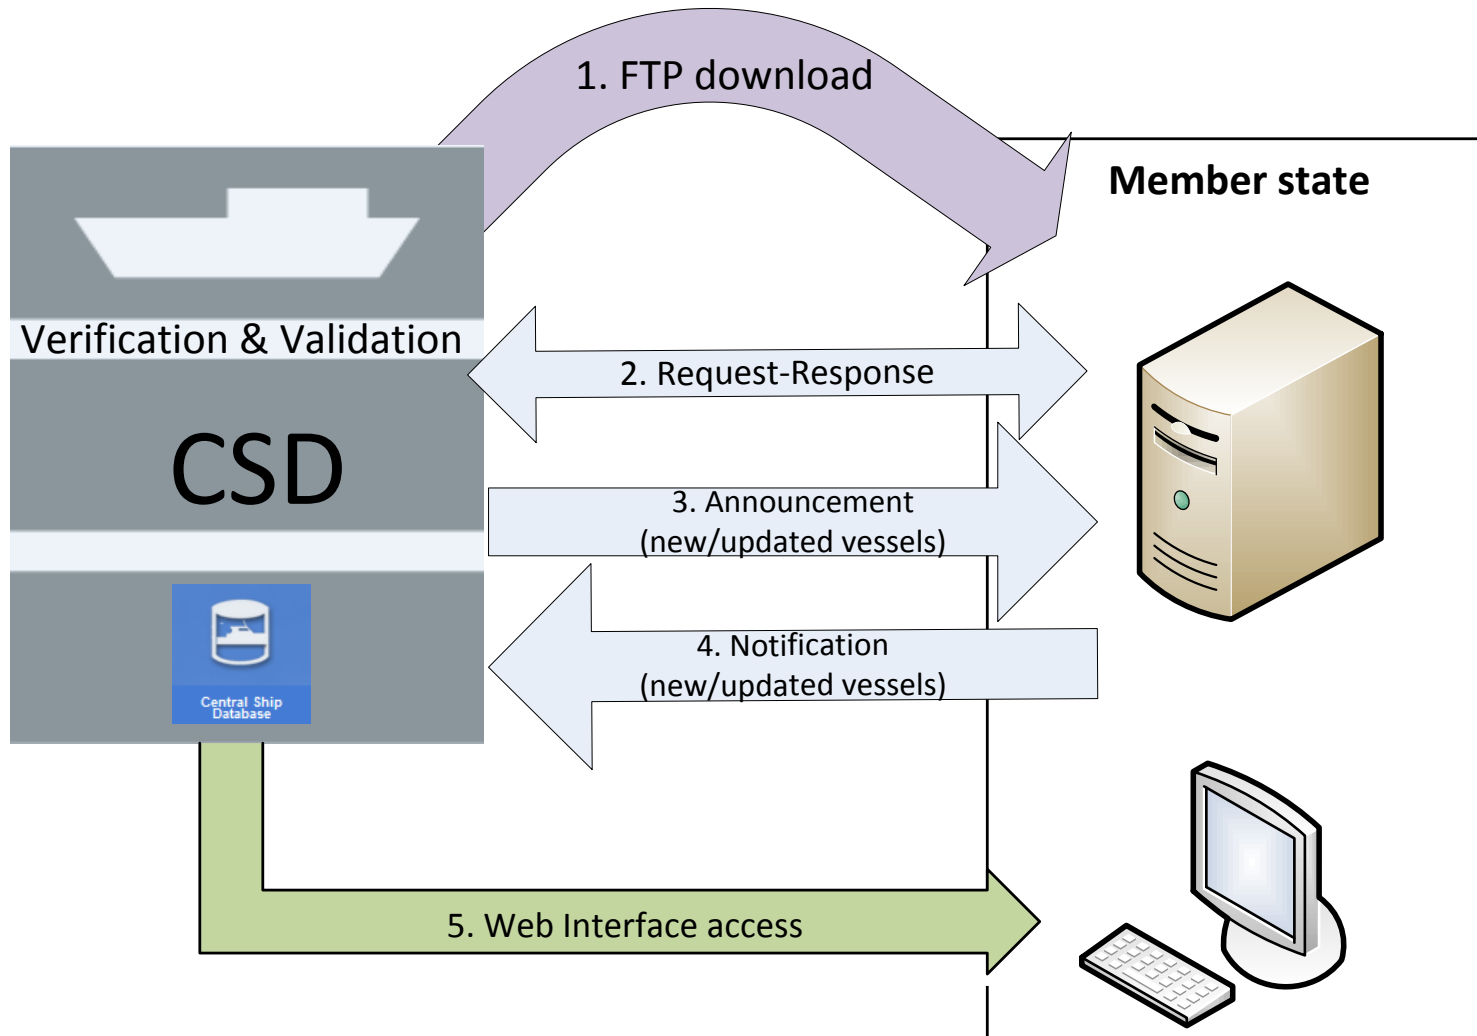

Principles

- Horizontal service
- To select the more reliable information by cross checking different sources
- Ship identity + additional ship particulars
 - Ship types
 - Dimensions
 - Technical details
 - PSC information
 - Company information
 - Status

Current structure (SSN v 3.2)

Services to Member States

Incoming changes (SSN v 3.3 – v 3.4)

Enhanced access rights

- Tool supporting access rights management of CSD data sources (e.g. distributing or not information via system to system etc..)

Web Interface

- More user friendly
- Aligned with the new EMSA visual identity
- New fields (Technical details, dimensions, PSC info, company details,...)

Web Services (S2S)

- New fields

Enhanced Verification & Validation

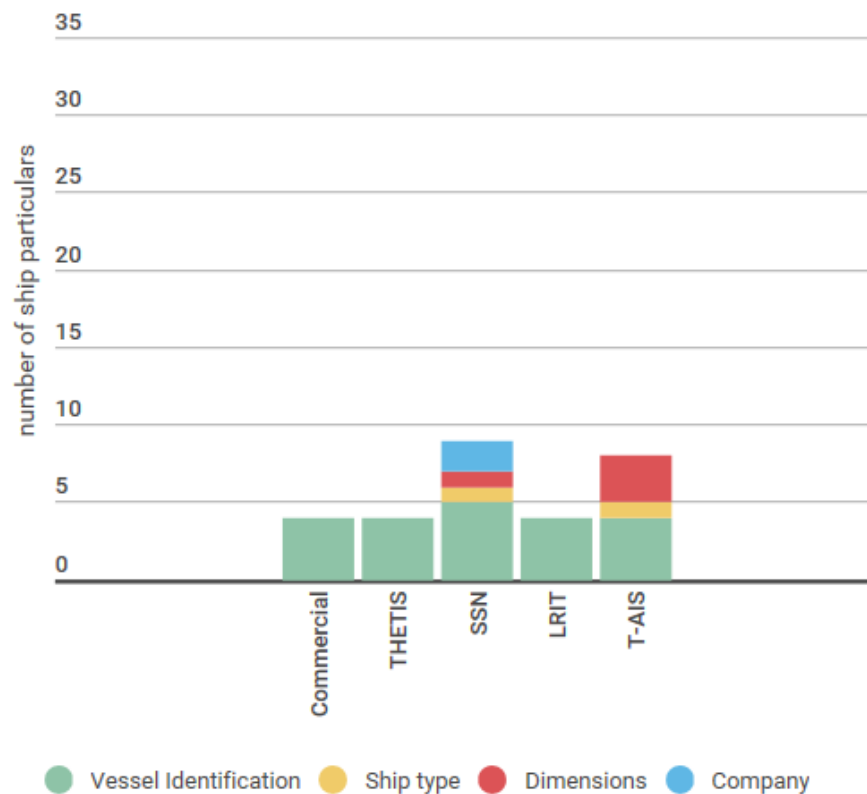

New technical & business documentation

- CSD concept paper
- CSD – SIG (Ship particulars Exchange) v1.2
- New XSD

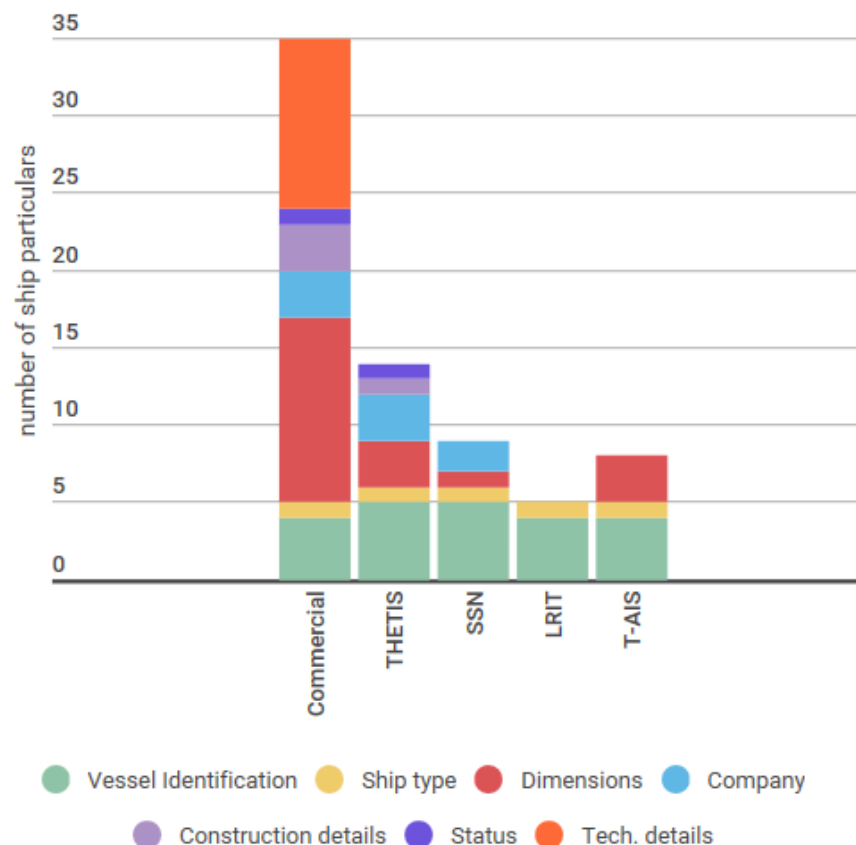

Ship particulars per source

SSN v3.2

SSN v3.4

Member States are invited to:

- **Start testing** CSD web services and web interface in order to feed and consume the CSD.
- **Check** CSD documentation available at:
