Submitted by EMSA

Summary	This document presents the current status of the follow up actions arising from the 5 th SSN/LRIT Group meeting.
Action to be taken	As per paragraph 3.
Related documents	5 th SSN/LRIT Group meeting – Workshop report

1 Background

This paper focuses on the current status of the actions arising from the 5th SSN/LRIT meeting in May 2019 relating to SSN issues. The follow-up actions concerning LRIT will be presented during the 7th SSN/LRIT meeting which is expected to be held in May 2020.

2 Current Status

The following actions have been completed:

- The revised PortPlus Guidelines were submitted to the HLSC for approval, together with the Common Operational Procedures (for information).
- The source file for Annex III to the PortPlus Guidelines was provided to Belgium.
- As a follow up to the requests of Member States, EMSA made the necessary arrangements to include Croatia in the CSD pilot project, and also for Malta and Slovenia in the IRWG.
- Croatia will share some of its national best practices with the SSN group (SSN/LRIT 6.5.3)

In addition, the following actions are ongoing:

- The transition to operation of SEG and the phase out of SSN Graphical Interface.
- MSs that are late in implementing SSN V.4 are to inform EMSA of the planned dates for the Commissioning Tests and for entry in production.
- MSs to update the exemptions reported in SSN with the relevant information on the ships and ports having granted exemptions, and to increase the awareness of IRs at national level.
- MSs to provide feedback on MS annual status reports.
- MSs to contact EMSA on a voluntary basis in order to schedule dedicated bilateral Data Quality meetings.

- EMSA sent an email to Denmark, Malta, Norway, Spain and Sweden informing them that the SSN data quality and availability checking tool was available for data extraction and the generation of raw data reports. MS were requested to confirm which data quality issues they would like to discuss, and/or which raw data they would like to receive.

3 Actions required

Member States are invited to take note of this information.
