

New EMCIP

Templates for Bidders

Appendix G of EMSA/OP/15/2016, “Development of the New European Marine Casualty Information System (NEW EMCIP)”

V.1.0

Date: 14/06/2016

Table of Contents

1. Team 3

2. Projects 3

3. Capabilities 3

1. Team

The following information shall be provided:

- a) Member Name;
- b) Profile as per tender specifications (Project Manager, Senior Analyst etc.);
- c) Key responsibilities within the team;
- d) Education (e.g. PhD or Master in Computer Science) and years of studies;
- e) Languages/ Level (as per Europass standards);
- f) Working experience total (years);
- g) Working experience (years) in activities similar to those in the role assigned in the team;
- h) Summary of key skills (incl. professional certificates);
- i) List similar projects/services executed in the past by the team member than those requested by this procurement.

2. Projects

The following information shall be provided:

- a) Description of projects (max 500 words);
- b) Budget of projects (indicating company budget);
- c) Customers and testimonials (if available it will be considered as advantage);
- d) The web address, if the project is accessible through the World Wide Web;
- e) Role of the company in the project;
- f) Solutions/technologies implemented, and the major challenges addressed (max 500 words);
- g) "Lessons learnt" (max 500 words);
- h) Indication if the project aimed at implementing (in any extent) the following directives, codes and practices:
 - Directive 2009/18/EC of the European Parliament and of the Council of 23 April 2009, establishing the fundamental principles governing the investigation of accidents in the maritime transport sector and amending Council Directive 1999/35/EC and Directive 2002/59/EC;
 - Code of International Standards and Recommended Practices for a Safety Investigation into a Marine Casualty or Marine Incident (Casualty Investigation Code) adopted at the 84th session of the Maritime Safety Committee (MSC) of the International Maritime Organization (May 2008);
 - ECCAIRS (European Co-ordination Centre for Accident and Incident Reporting Systems) as the co-operative network of European Civil Aviation Authorities (CAA's) and Safety Investigation Authorities (SIA's), managed by the Joint Research Centre of the European Commission (DG JRC).

3. Capabilities

Bidder background and expertise shall be primarily, but not exclusively, focused on:

- Implementation and configuration of web-based database applications;
- Integration of database applications within enterprise content management systems (CMS);
- Implementation and integration of CMS workflow management solutions;
- Design, implementation, configuration and deployment of Service Oriented Architecture (SOA) and Resource Oriented Architecture (ROA);
- Implementation and integration of large CMS taxonomy management systems.
