

## ANNEX C – Price Quotation

*(to be filled in by the tenderer)*

The price shall be quoted in Euro and in accordance with section 11 of the tender specifications.  
The percentage (%) of the brokerage fee shall be equal for all insurances.

Please note: For purposes of the evaluation the price shall be calculated without any deductibles (“franquia”) with the exception of the admissible deductibles explicitly stipulated in section 2.3 of the tender specifications. If the tenderer can only offer an insurance policy including deductibles higher than the ones stipulated in section 2.3 of the tender specifications, they will be taken into consideration as unfavourable for the evaluation of the award criteria/price criterion and will result in a lower score. On the contrary, any deductibles below the “admissible deductibles” stipulated under point 2.3 (or no deductibles) will be taken into consideration as favourable for the evaluation of the award criteria/price criterion and will allow a better score.
