

Peter Claeysens

Director General

Peter Claeysens was appointed director-general of the directorate general shipping in October 2022. The directorate general shipping is part of the Federal Public Service Mobility & Transport.

Peter joined the Federal Public Service Mobility & Transport in 1997 as a naval engineer and policy advisor within the Maritime Transport Directorate and has held various positions within the FPS Mobility & Transport.

Prior to joining the Federal Public Service Mobility & Transport, Peter was a researcher and project engineer with the Flanders Hydraulics Research Institute where he was in charge of the towing tank for maneuvers in shallow water and ship modelling.

Peter holds a degree of Naval engineering from the University of Ghent.
