

IRD phase 3 – Planning and preparation of operational tests

Facilitation of ship to shore reporting pilot project – 7th meeting

Lukasz Ziolkowski / Senior Project Officer
Department C: Digital Services & Simplification

Video conference, 14 October 2021

The following high-level task were defined for the project:

- Define the content of the ISR.
- Develop the technical solution to build the ISR.
- Develop the technical solution to distribute the ISR to MSs authorities.
- **Test the concept with authorities and industry.**
- Prepare the final report.
- At the last project meeting it was agreed that the operational tests with ships would be expected to start in October 2021 and in view of the operational tests, Member States were invited to think of test cases and ships to involve in the tests (**Action Point 4**).
- The previously approved guidance document for the operational tests with the authorities has been extended to cover electronic submission of MRS data by ships.

Presentation of the updated guidance document

Actions required

Member States were invited to:

- Provide comments to the guidance distributed on 11 October;
- Identify ships and authorities willing to participate in the operational tests.
